

When Can I Get a COVID-19 Vaccine?

Because doses are limited, the CDC recommends that the first doses of COVID-19 vaccine be given to certain groups to reduce serious illness due to COVID-19 and ensure society continues to function. As more doses become available, more people will be able to get vaccinated.

Approximate Timing of How the Vaccines Are Expected to Be Rolled Out

Based on information provided by the Advisory Committee on Immunization Practices

*Frontline essential workers include: first responders, educators, U.S. postal service workers, grocery store workers, public transit workers, corrections workers, and those working in food & agriculture and manufacturing

**Other essential workers include: Those working in transportation and logistics, food service, construction, finance, IT and communication, energy, media, legal, public safety (engineers), and water and wastewater
